Proceedings of Congress.
HOUSE of REPRESENTATIVES
OF THE
UNITED STATES.
SATURDAY September 12.

THE bill for establishing the compensations of the members of Congress was received from the senate with their concurrence in the amendment proposed by the house to their amendment.

The house then went into a committee on the judiciary bill. Mr. Foubert in the chair.

The committee having made some further progress, rose—and the house adjourned.

MONDAY September 14.

The committee appointed to examine the enrolled bills reported, that the bill for establishing the compensations of the members of both houses, and their respective officers, having been examined, was found correct: the speaker then affixed his signature to the same.

A memorial from the Baron de Stuben was read, and laid on the table.

The memorial of the weighers and gaugers of the city of New-York, praying that their fees may be enhanced, was read the second time.

A message was received from the senate, with the bill for suspending the operation of a clause in the Collection law, in which they have concurred with amendments. Also, the bill for suspending the operation of a clause in the tonnage act, non concurred.

The amendments proposed by the senate to the resolution of the house, providing for amendments to the constitution, were read, and on motion it was voted, that a number of copies be struck off, for the use of the members.

The amendments to the bill for suspending the clause in the collection law were then read, and acceded to on the part of the house.

These amendments providing for the relief of Rhode Island and North-Carolina, in lieu of the provision intended by the suspension of part of the tonnage act.

The house then went into a committee of the whole on the judicial bill.

Mr. Smith (S. C.) proposed the following amendment to the twenty-ninth section, which respected juries, viz. That all juries which shall be summoned to serve in the courts of the United States shall be formed according to the laws of each state respectively. This amendment was adopted.

Mr. Burke moved to insert the following clause in the same section, viz. In cases of felony and treason, the offender shall be indicted and tried in the county, town or district wherein the offence shall have been committed, as hath been usual in each state before this law was enacted—This was carried in the affirmative. The committee this day finished the discussion of this bill, which was reported to the house.

Mr. Ames of the committee, appointed to bring in a bill upon the subject of the permanent residence, pursuant to the resolution passed by the house, brought in a report, which was read the first time.

Adopted.

TUESDAY, SEPTEMBER 15.

Mr. White moved as an amendment to the second section of the judicial bill, that the two counties on the eastern shore of Virginia, and the eastern shore of Maryland, be added to the state of Delaware, to compose one district.

Mr. Parker said that he was bound to oppose this motion, because he thought that such a division would be disagreeable to his constituents. The question on this motion, was put, and negatived.

Mr. Seney moved as an amendment in the third section, to strike out Baltimore, and insert Chestertown as the place for the holding the district court, which motion was lost—The yeas and nays being called are—

Yeas, Messrs. Beason, Floyd, Geary, Goodhue, Hatly, Heffler, Lawrence, Live more, Moore, P. Mullens, g. Parker, Scott, Seney, Smith (M.) Smith (S. C.) Sylvester, Thatcher, Trumbull, Vining, Wynkoop, 20.

Nays, Messrs. Baldwin, Bland, Brown, Cadwallader, Carroll, Contee, Frazar, Foster, Gale, Gilman, Griffin, Hathorn, Lee, Madison, Matthews, Pace, Van Rensselaer, Schueman, Sherman, Simmickson, Stone, Sumpter, White, 17.

WEDNESDAY, SEPTEMBER 16.

The bill for the temporary establishment of the Post Office, was read the first time.

Mr. Goodhue, Sherman, and Mr. Contee were appointed to bring in a bill to repeal that part of the collection act, which ascertains the value of the Rouble.

The petition of the merchants of Fort-Mouth was referred to the above committee.

A committee consisting of Mr. Burke, Mr. Moore, and Mr. Lawrence, was appointed to bring in a bill to establish the salaries of the judicial department.

The consideration of the bill sent down from the senate, providing for the punishment of certain crimes against the United States; and of the bill to establish hospitals for the

sick and disabled seamen, was postponed until next session. The act to suspend part of the Collection Law, and the act to provide for the safe keeping of the acts, records, and seal of the United States, were received from the President of the United States, with his signature and approbation.

THE public were informed in the last paper, that a plan was in agitation for the settlement of the lands belonging to the State of Georgia, contained in the great bend of the Tennessee river, commonly known by the name of the

MUSCLES-HOALS

C O U N T R Y.

In addition to which, the subscriber has thought proper, to communicate the terms more fully, for the satisfaction of any person desirous of emigrating to that delightful country. The character of this country is so well established, as to require little commendation at present. The soil is as fertile as Kentucky, the climate infinitely more agreeable, better calculated for raising cotton, indigo and the different productions of this climate. Its situation is perhaps as convenient as any on the Western waters, lying on the navigable and beautiful river Tennessee, which affords an infinite variety of fine fish &c. Any person who has a wish to assist in forming a settlement in that country, may be informed of any particulars by application to the subscriber, who hereby engages to every able bodied man, two hundred acres of land of the first quality in that country on the following conditions: that they meet him at Lexington or such place in Kentucky as he may think most convenient, on or before the first day of March 1799 well armed and completely equipped, to proceed from thence to the place of settlement, (which will be at the Muscle-Shoal,) and to continue there until the twenty-fifth day of December following.

B. GAINES.

PHILADELPHIA, Sept. 10.

We are informed that near sixty journeymen manufacturers and tradesmen have arrived in this city within this last month, from various quarters, but mostly from Europe.

The people of France never appeared in a more exalted point of view than at the present important crisis. As friends to the equal rights of human nature, Americans cannot be indignant spectators of their glorious exertions in the cause of the ty—and as allies and friends they cannot but wish them a complete triumph in establishing a free constitution of government.

LEXINGTON, Dec. 19

Late London newspapers advise, that the port of Danzig, and the other ports in the Baltic, were shut against the exportation of all grain; that six sail of American ships, deeply laden with American wheat, were lying (June 29) in the Yarmouth roads; but the British ports being, unexpectedly shut, they were re-consigned to different ports of France; that the inclemency of the weather had destroyed the husbandman's hopes, in various parts of France, but particularly in Gascony that this extensive province exhibited a scene of shocking devastation; and that its unfortunate inhabitants had no other prospect but wretchedness and distress.

On Thursday 10th Inst. a boat coming down the Ohio river, was fired on by the Indians at the 3 Islands, about 15 miles above Limestone, two men and one woman were wounded mortally. The woman and one of the men have since died of their wounds.
